Read the following passage carefully and answer the questions that follow ;

One major problem that the world faces today is the rapid growth of population. This, many believe that, is due to better food, better hygiene and the advances in medicine. Until the beginning of the 19th century, most people died before the age of 50. Today the average life span has become 70 years. India is the second most populous country in the world, just behind China. The possible check is birth control. Failures to check population increase will lead to rise in unemployment, low economy, more demand for food and eventually a rise in crime rate.

Answer the following questions :

4x1=4

53. Which country stands first in population ?

54. How do you think, the population is increasing ?

55. How can we check population growth ?

56. Mention any two consequences of population explosion.
