**BLACK MONEY**

In India, black money refers to funds earned on the black market, on which income and other taxes have not been paid. The total amount of black money deposited in foreign banks by Indians is unknown. Some reports claim a total of US \$ 1.06 trillion is held illegally in Switzerland. Other reports, including those reported by the Swiss Bankers Association and the Government of Switzerland, claim these reports are false and fabricated, and the total amount held in all Swiss bank accounts by citizen of India is about US \$ 2 billion.

In February 2012, the director of India's CBI said that Indians have US \$ 500 billion of illegal funds in foreign tax havens, more than any other country. In

March 2012, the government of India clarified in its parliament that the CBI director's statement on \$ 500 billion of illegal money was an estimate based on a statement made to India's Supreme Court in July 2011.

Some Indian corporations practice transfer mispricing, by under-invoicing their exports and over-invoicing their imports from tax haven countries such as Singapore, UAE, and Honk Kong. Thus the promoters of the public limited companies earn black money abroad at the cost of majority share holders. In May, 2012, the Government of India published a white paper on black money.
