**BMTC Smart Card**

The Bangalore Metropolitan Transport Corporation (BMTC) has launched the much-awaited Smart Card to the bus commuters in the city. Chief Minister Siddaramaiah launched the Smart Card and also inaugurated hi-tech buses and renovated foot-over bridge at Kempegodwa Bus Station on June 17th. BMTC's Smart Card has been launched in order to facilitate cashless transaction in purchasing ticket and passes. It intends to implement Smart Card based fare collection system. For this it has planned to implement a new method called Open Loop Smart Card based fare collection system in its

services. This type of Smart Card is the first of its kind in the country's city transport organisations, says a press release from the BMTC.

The purpose of Smart Card-based fare collection is to support inter-operable multimodal transit ecosystem. These are EMV (Europay, Master Card and Visa) enabled cards and can be used as E-Purse. Further these Cards can be used as pass for commuting in buses and supports common mobility card system.

Once fully operational, travellers will experience increased convenience, as it will allow them to use the same card for purchasing BMTC bus tickets/passes and for all other normal day to day needs (retail transactions).

The BMTC has developed these RuPay contactless enabled Smart Card based fare collection system with its partner Axis Bank in association with National Payments Corporation of India (NPCI).

**Do the following alignments :**

1. Set Page Size : "A4", Margins with Top : 0.75", Inside : 0.5",
